

Before and after Chakra Balancing with Crystals and Tuning Forks

BEFORE

Important Points:

- Prior to bodywork, client's chakras measured at 74% in alignment
- Average energy was 5.4 in the chakras, with the solar plexus notably higher in energy

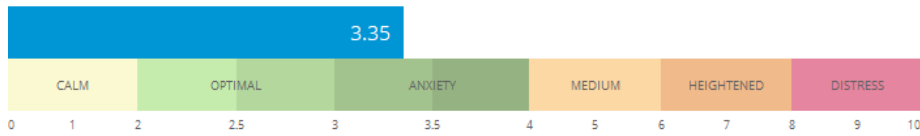

AFTER

Important Points:

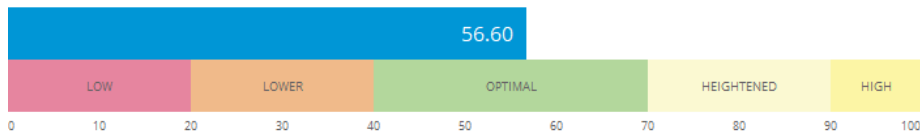

- After bodywork, client's chakras measured at 89% in alignment
- Average energy was 6.0 in the chakras, with the solar plexus coming into closer range with other chakra energy, and throat, heart and sacral chakras increasing in size

Before and after Chakra Balancing with Crystals and Tuning Forks

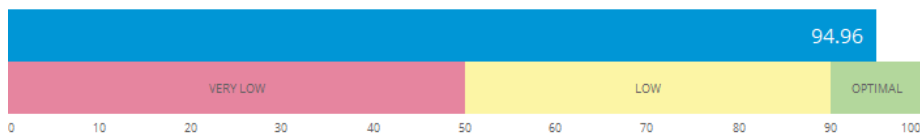

STRESS: *Anxiety*

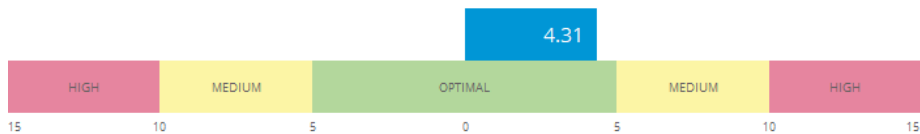

ENERGY: *Optimal*

BALANCE: *Optimal*

*ORGANS DISBALANCE, %: *Optimal*

BEFORE

Important Points:

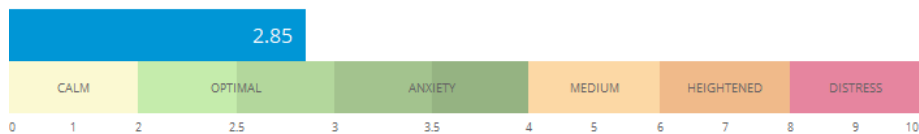

- Prior to bodywork, client was experiencing a level of anxiety prior to the session.
- Her energy and balance were both in the mid-optimal range.
- Organ balance was slightly disbalanced toward the right, but still optimal

AFTER

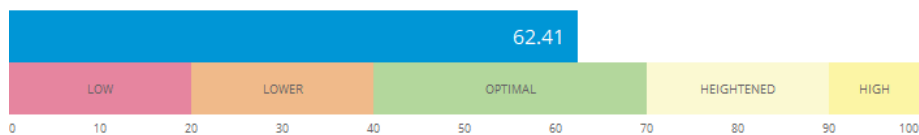

Important Points:

- After bodywork, client experiences no anxiety and has dropped into a high optimal range
- Her energy and balance have both moved into higher optimal ranges.
- Organ balance much more

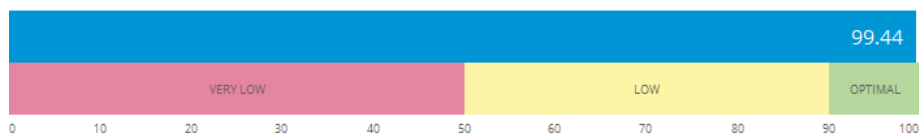

STRESS: *Optimal*

ENERGY: *Optimal*
